State Summary Data

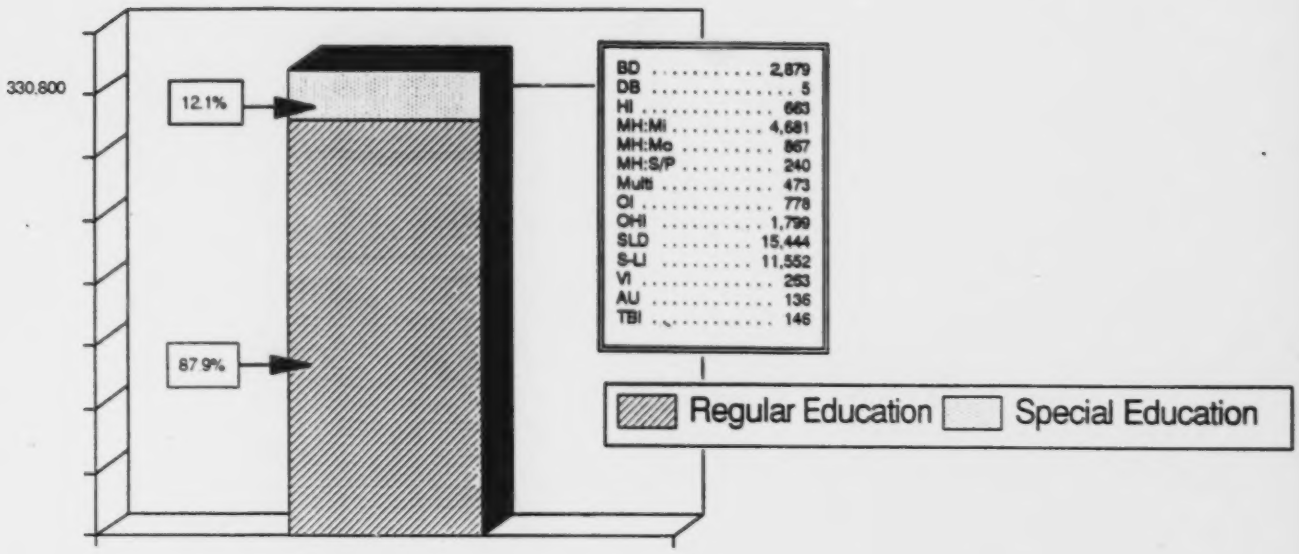
Nebraska Special Education Child Count
December 1, 1995



The Nebraska Special Education Child Count is conducted each year as of the first day of December. The December 1, 1995, Special Education Child Count total is 39,926. Membership figures for all students are collected by State Statute as of the last Friday of September each year. The September, 1995, membership total is 330,800*. Membership totals are collected from Public School Districts, Nonpublic Schools, Educational Service Unit Schools and State Operated Schools. Special Education Child Counts are collected from Public School Districts, State Operated Schools and Private Service Providers (such as hospitals and residential treatment centers). While it is recognized that there will be differences in comparing counts taken on different days and from slightly differing reporting entities, these figures represent the available data for the two populations and users of the data are advised of such differences.

Each child who is reported to SESIS has a verified disability according to Nebraska Department of Education Rule 51, is receiving services according to an IEP/IFSP and is counted once in the category corresponding to the child's primary disability. If a child has more than one verified disability, the primary disability is designated by the school district. For example, if a child has a Mental Handicap:Severe/Profound and Orthopedic Impairments, the child's primary disability could be shown as Multiple Impairments and the child would be included in the Multiple Impairments total but not in the count of Mental Handicap:Severe/Profound or Orthopedic Impairments.

In October, 1995, revisions were made to the SESIS form to collect information on gender and race/ethnicity. Additions were also made for children who are reported as a ward of the state or court. Three setting codes for children birth to age two were added as well as two more categories on the services listing. The percent of time in special education has been split into two categories and reporting is required for all ages. As the percent of time in now collected on pre-school children, the pre-school supplement page was deleted. Copies of the revised form can be found in the appendix section of this booklet.

Nonpublic School Status

Out of the 330,800 children enrolled for the 1995-96 school year, approximately 12.4% (41,047) were enrolled in non-public schools. This represents a 1.1% increase from the previous year. Of these 41,047 children enrolled in non-public school, 1,318 children were verified with a disability and receiving public, special education services, a 1.8% increase over the 1994-95 school year. This population is 3.2% of the total non-public enrollment for the year.

The table below summarizes the non-public population receiving special education services by the child's age and primary disability. Non-public school children with disabilities represent 3.3% of the 39,926 children with verified disabilities in 1995. The next page shows the same non-public population by the child's county of residence. The non-public school attended is not necessarily within the child's county of residence.

Ward Status

Of the 39,926 children with verified disabilities in the 1995-96 school year, 2.9% are reported as wards of the state or the court. These children are reported by the school district of financial responsibility or the agency providing the service if a school district cannot be determined.

As represented in the chart below, the disability categories of behavioral disorders and specific learning disabilities together comprise 50% of the ward population. The tables on the next two pages outline ward status by the child's county of residence and primary disability.

Program Provider

A child's program provider is reported as either the child's resident school district, another school district, or an agency/service unit. On December 1, 1995, 87% of the children with disabilities were reported as receiving services from their resident school district. The tables on this page show the program provider by the child's primary disability and age.

Instructional Setting

Beginning the 1995-96 school year, school districts were given revised setting codes to use in their reporting. Codes for family day care, regular nursery, early intervention class, and outpatient service facility were added for children birth to age two. The categories of centerbased preschool and neutral site are no longer valid codes. Districts have until October, 1996, to update their records.

The most frequently reported setting is in the public school. In 1995 this service setting was reported for 91.56% of the children with verified disabilities. The following pages outline the service settings according to the child's primary disability and age.

Percent of Time Spent in Special Education

The district is asked to report the percentage of the school year that each child receives special education services. Beginning October, 1995, school districts are required to report the percentage of time using both a special education "pull out" category and a special education "inclusion" category. Special education (pull-out) is the time the child receives services outside the regular education classroom. Special education with regular education peers (inclusion) is special education services provided in the regular education classroom. School districts are required to revise their reporting to include this distinction by October, 1996 for children below age five and October, 1998 for school age children.

The three reports which follow show the percentage of time children are spending in special education according to primary disability, child's age and instructional settings.

Services

This section identifies all services that children are receiving according to the child's IEP/IFSP, as reported on the child's SESIS form. In October, 1995, two additional categories of Assistive Technology Device and Assistive Technology Service were added to the services list. Some of the most common services that districts have listed under the section of "other services" include resource, para-professional, adaptive PE, independent living training and full-time aide. The services being provided on December 1, 1995 are reported by primary disability and by age.

Visual and Hearing Impairment

School districts are asked for additional information on children who are verified with a visual or hearing impairment. This may be a primary or secondary disability. Information on the child's primary reading mode for visually impaired and primary method of instruction for hearing impaired is charted below.
